

Project Overview

The project consists of the design and construction of three separate projects:

Lucy Webb from South Madison to Silvertop Lane:

- The street will be replaced and widened where needed
- Traffic Signal added at South Madison and Lucy Webb
- Sidewalk or bike paths will be added to both sides of the street
- Storm sewer upgraded
- Public input will be taken at a meeting tentatively scheduled for the November, 2007.
Further details will be mailed to residents in abutting subdivisions.
- Construction is scheduled to begin summer of 2008.

South Madison from Lucy Webb to Hubach Hill

- The road will be replaced and widened
- Traffic Signal installed at South Madison and Hubach Hill
- Sidewalks or bike paths added to both sides of the street
- Storm sewer upgraded
- Public input will be taken at meetings to be determined at a later date.
- Construction is scheduled for 2009

South Madison from Hwy 58 to Lucy Webb

- The road will be replaced and widened where needed
- Highway 58 intersection will be studied and recommendations for improvements given
- Sidewalks or bike paths added to both sides of the street
- Storm sewer upgraded
- Public input will be taken at meetings to be determined at a later date.
- Construction is scheduled for 2009/2010
